

# BIG SANDY NEWS.

Aut inveniam viam, aut faciam.

LOUISA, LAWRENCE COUNTY, KENTUCKY, MARCH 17, 1905.

M. F. CONLEY, Publisher

## THE NEWS OF THE WEEK.

A Daily Resume of Important Happenings.

March 11.  
According to a statement made by Secretary Blitchcock, the investigation of the Department of the Interior in regard to the Oregon land frauds has resulted so far in sixty-eight indictments and six convictions.

The verdict of the Oregon jury in the Stanford poisoning case was that Mrs. Stanford came to her death from strychnine poisoning, the drug being introduced into the bottle of bicarbonate soda with felonious intent.

The towns in the lowlands along the Licking river were reported under water and the inhabitants were saving in boats to higher ground. Large crowds are at work trying to save loss in the Kentucky, Licking and Red rivers.

The special commission created by President Roosevelt to consider the subject of naturalization will submit a full report in the next regular session of Congress. Evidence has been found to indicate a large number of false and fraudulent cases.

According to the crop report, issued yesterday by the Agricultural Department, the percentage of wheat remaining in the hands of the farmer is 20.1 or 111,000,000 bushels; of corn 28.7 per cent., or 254,000,000 bushels; of oats 28.3 per cent., or 247,000,000 bushels.

Mrs. Margaret H. Hayes, of Colorado Springs, daughter of Jefferson Davis, has written a letter urging the Confederate veterans of Mississippi to use every endeavor to have the State properly recognized in its inscription on the Davis monument at Richmond, Va.

The will of Mrs. Josephine L. Newcomb, bequeathing her property to the H. Spaulding Newcomb College for Women in New Orleans, was sustained by the referee in the suit of heirs to contest the will. By the decision the estate will be enriched by more than \$125,000.

Judge Wheeler, of the United States Circuit Court of Appeals in New York, yesterday rendered an opinion in favor of the American Sugar Refining Company, which, if finally sustained, will cost the Government \$5,000,000. The question involved is one of refunding duties paid on sugar imported from Cuba.

The Court of Appeals refused to grant the writ of prohibition asked for by the Hargis brothers and others to restrain Judge Watts Parker, of the Fayette Circuit Court, from assuming jurisdiction of the trial of their cases for alleged complicity in the assassination of James Cockrell at Jackson. This would the case of the Fayette Circuit Court for trial.

The court held that the warrants issued by Judge Watts Parker at Jackson for the arrest of the accused were "procured upon their own instigation or that of some of them acting for all with the design and intent to have a trial of the case there, or elsewhere, but not at a court to prevent the trial elsewhere." The proceedings before Judge Watts Parker were therefore declared void. The opinion of the court was delivered by Judge O'Farrell, one of the judges dissenting. Upon being advised of the action of the Court of Appeals, the Jackson attorney of the Hargis brothers wired the Judge of the Fayette Circuit Court that they were ready to surrender. They will leave today for Lexington. Application will be made Monday for bail.

March 12.  
The President yesterday announced the Board of Visitors to the Naval Academy for the current year. Senator McCleary is a member of the board.

The Kentucky, Licking and Red rivers are falling. All the levees have run out and will now catch the supply, sufficient, it is said, to run the mills all summer.

Rumors were rife in Wall street yesterday that Rockfeller, Vanderbilt and Pennsylvania interests had agreed on a gigantic consolidation of railroads, into which the Vanderbilt lines were to be taken. One story is that the Union Pacific is to be the controlling company, while another has it that the New York Central is to dominate the combination.

A special officer from the Fayette Circuit Court placed James Hargis, A. H. Hargis and Albert Hargis under arrest at Jackson and will leave with them Monday morning for Lexington. The officer is waiting in Jackson for Ed Callahan, who was indicted jointly with the Hargises, to arrive from his home at Crockettville and surrender. At Lexington the defendants will make application for bail.

Mrs. Ouida L. Chadwick was convicted at Cleveland on seven counts of conspiracy to defraud the United States by complicity in procuring the certification of checks on a national bank when there were no funds in the bank to her credit. The extreme penalty fixed by law is a fine of \$10,000 or imprisonment for not more than two years on each count. The jury was but two hours in reaching a verdict. When Mrs. Chadwick

grouped the morning of it she sank into her chair. Later she had a hysterical attack which lasted fifteen minutes. The woman's attorney made a motion for a new trial. Judge Taylor announced that later he would set a day for argument on the motion.

The dispatches received at St. Petersburg indicate that Gen. Kuropatkin has saved himself from the trap set for him by Field Marshal Oyama. According to these dispatches he is falling back slowly with the main portion of his forces intact, and fighting a rear guard action. On Saturday afternoon he was fifteen miles from the Pass and twenty-five miles from the Pass. A part of his forces have already reached the Pass, but whether any of the units of his army were cut off or captured is not definitely known. The press dispatches say that the Japanese separated the First and Fourth Russian corps and the inference is that they were either killed or captured, as the latter allowed no further reference to their fate. The losses have been estimated at 200,000. An official report from St. Petersburg says Kuropatkin has lost 50,000 prisoners. The confidence of the Japanese is indicated in a statement by Field Marshal Oyama that his forces will pursue the Russians to Harbin. An element of possible danger to Kuropatkin is the army of Gen. Klemens, which is supposed to be somewhere on the line of his retreat to the north. Its location, however, is not definitely known.

March 12.  
A number of Kentuckians are granted claims as the result of the passage by Congress of the Omnibus Bill.

An alleged insurrectionary movement against the Russian regime in Venezuela, was reported in Philadelphia. It is charged that a steamer and been chartered to carry munitions of war to Venezuela.

Col. Chas. Hume, for many years an instructor in the United States Military Academy, and subsequently for many years a member of the Confederate army, died suddenly at Highland Park, N. Y., at the age of seventy-five years.

The Washington meeting of the American Tour Society was held in Grace Reformed church. Justice Brewer, the honorary vice president, presided and made a brief speech, while the principal address was made by President Roosevelt.

Dealing for oil is the big business this spring and summer in Kentucky and Tennessee. Operators have begun to move machinery into sections out of the scope of state activity. The present legislation in Kansas is said to be depressing the market and keeping down the price of crude oil.

At Denver, Col., George Schuster, a tourist, suffered a severe attack of heart failure. He was taken to the hospital and died. He was a resident of Louisville, Ky., and was on a tour of the West.

James Alex and Ell-Hargis are expected to arrive in Lexington today in custody of an officer. It is thought that they will make application for bail, the motion the accused before Judge Watts Parker. The officer will return to Jackson for Ed Callahan, who had not at it reports been advised of the action of the Court of Appeals.

The Russian army, demoralized and exhausted, its rear guard actually attacked by the pursuing at never-resting Japanese, is nearing the Pass, and it begins to look as if repatriation will make no stand. He has lost many of his guns, thousands of his rifles, tons of ammunition and supplies, and perhaps 150,000 men.

He admits 47,500 men, but makes no report of his great number of wounded. The Japanese had made prisoners of 40,000 of his men and report that 25,000 others are left on the field. The Japanese loss is 11,222. In the face of this state of affairs, the Carr announces that he will fight on. Kuropatkin is believed to be ordered to proceed into Manchuria.

Several methods are used in plant setting of which I give those successfully tried and used by myself.

Method No. 1.  
Plow and prepare your ground as for corn, being particular to have it well pulverized. Mark out with markers or plow 4 feet apart each way (or as far apart as the nature and quality of the land will justify). If the ground is wet by a good rain aftermarking out, and while the ground is wet, set plants from the plant bed, you should expect to draw the plants from the roots of the plants are thoroughly wet, so they can be drawn on the bed without pinching or bending. Only enough plants should be drawn at a time to supply the

## ROYAL Baking Powder Saves Health

The use of Royal Baking Powder is essential to the healthfulness of the family food.

Yeast ferments the food.  
Alum baking powders are injurious.

Royal Baking Powder saves health.

ROYAL BAKING POWDER CO., NEW YORK.

## TOMATO GROWING

for Canning Purposes is One of the Most Profitable Crops Grown by Farmers.

### Planting the Seed.

Several methods are used with more or less success, of which we have successfully tried and recommend the following methods.

#### Method No. 1. (A Sure Way.)

Burn your plant bed some as preparing a plant bed for tobacco, corn and canvas bed.

#### Method No. 2. (A Good and Quick Way.)

Select a good mellow piece of land in the field where you expect to grow tomatoes; take a team and plow, back-furrow a strip about 1-2 or 3 feet wide and 40 feet long for each acre of tomatoes you expect to plant.

After plowing as above directed, sow on the ground thus plowed from 20 to 25 pounds of commercial fertilizer to every 40 feet in length of the plant bed, then sow the seed with an iron tooth rake mixing the fertilizer with the seed, then sow your seed broadcast, but evenly on the bed, sowing about 2 1/2 ounces of tomato seed for each acre to be planted or as every 40 feet in length of the plant bed seed in with rake, water and bed is wet and cover with tobacco canvas as directed, having canvas to reach the ground on each side and be fastened with stakes. A good plan is to run a 12-inch plank along each edge of the bed; stretch a wire six inches high along middle and back canvas to boards on each side. The plants will grow as large in four weeks under the canvas as they will in eight weeks without it.

I have used all the above methods of plant growing, and would recommend especially the last one, which I have used for large crops having grown 100 acres of tomatoes each season for the growing factory for three successive seasons.

#### Fertilizing.

Barren ground, well spread on the ground after breaking or plowing, applying it liberally, is fine for tomatoes.

Commercial Fertilizing, having a large percentage of potash in its composition, is very desirable for tomatoes, beans or other growing crops, as it makes them mature quicker and ripen up better, especially where the land is rather poor, yet it finds it pays even in good land.

The amount used should be governed largely by the character of the land to be fertilized. In dry land you can use more than in very sandy land, as it helps to dry up the plants in time of severe drought. However, we would generally advise about 125 pounds to the acre to be used, fertilizing in the hill by marking out your ground and dropping a spoonful in each hill and cover it with a hoe like covering over. Then set plants in the hill after a rain while a season is on or water the plants in the hill if set when dry.

#### Plant Setting.

Several methods are used in plant setting of which I give those successfully tried and used by myself.

## MT. ZION.

Chilton Workman's wife, of Pochran county, has returned to her mother's and is very low with consumption.

Tom Workman, who has been living at McIntyre, has moved to Blair creek. We are sorry to lose him as he was a great neighbor.

Our Sunday School at Mt. Zion is progressing nicely this winter.

Phil Byington lost a fine lot of calves the last cold spell.

Miss Annie Kinner was calling on Mrs. Caldwell last week.

Joe Rouse is attending the Bolts Fork school.

Miss Fanny Bock is visiting her brother at Buchanan.

Misses Beattie and Mary Stump were calling on Miss Levia Workman Sunday.

Sam Bock is all smiles since he has a big boy at his house.

View Bryon is a regular Sunday School scholar at Mt. Zion. We are glad to have him with us as he is great help to our school.

A protracted meeting began at Mt. Zion March 11th.

Miss Mary Bock was calling on her sister, Mrs. White, last week.

Harve Workman and daughter, Harriet, were on our creek Friday.

Charles Stump was calling on friends at Mt. Zion Sunday.

Will Clay and wife have been visiting Non Strother, who has been very ill.

Green Kinner, Willie Bock and Millard Byington went to Hove creek Sunday.

We are sorry to say Uncle Isaac Oglet is no longer.

Millard Byington, who has had trouble with his eyes for some time, is able to be out again.

The protracted meeting at Graustand is progressing nicely.

Two Cousins.

Married, recently at the bride's home Miss Lizzie Bolt to Allen Kinner. May their pathway be ever bright.

Joe Ross is attending Prof. Talbert's school at Bolts Fork.

Demps Davis, of Ashland, passed through here Saturday on his way to Bolts Fork to attend the Kinner-Bolt wedding.

Lizzie Opelt visited Levi Workman last week.

Mr. and Mrs. Lon Johnson visited M. and Mrs. Dimp Kinner last Sunday.

Rev. Joe Ross was smiling on the fair sex Sunday afternoon.

Two Chums.

THE ORIGINAL.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the public. Ask for FOLEY'S Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons.

CLIFF.

Spring is here. Plenty of steamboats.

C. Watts, the veteran drummer, was here yesterday.

R. L. George, of Buffalo, W. Va., was calling here last Sunday.

J. C. Compton was in town today.

C. O. McDougle, the popular drummer, was here Saturday.

A. T. Elder, after spending a very pleasant week at the home of Mr. and Mrs. Hatcher, has returned to Ashland.

B. J. Howard has gone to house-keeping at Camp 3.

Lillie Fitzpatrick visited her sister, Mrs. John H. Hatcher, today, who has been quite sick.

J. T. Layne, of Prestonsburg, was smiling on his many friends here Sunday.

Dr. Richmond, our popular physician, was making professional visits here last week.

Shady Grims passed through here last week.

Mr. Kenos Hackworth, of Bannock, who has been sick for quite awhile of consumption, died last Saturday, and was buried Sunday. He left a wife and three small children to mourn his loss.

J. R. Dickey passed through here last week.

PLEASANT AND HARMLESS.

Don't drug the stomach to cure a cough. One Minute Cough Cure cuts the mucus, draws the inflammation out of the throat, lungs and bronchial tubes, heals, soothes and cures. A quick cure for Croup and Whooping Cough. Sold by Louisa Drug Co.

SMOKEY VALLEY.

Moving is all the go. Reed Roberts has moved to his new home at this place. Robert Johnson has moved to the Dixon farm.

Mrs. Rosa Hays is visiting home folks this week.

Mrs. Lemaster, who has been sick for some time, is improving.

Milt Pickrell has moved to the country again.

Freelon Johnson left last week for Thacker, W. Va.

Julius Diamond has been having some repairing done on his house.

Rev. Grizzle preached a very interesting sermon at his last appointment.

Violent.

It Keeps the Feet Warm and Dry.

Ask today for Allen's Foot-Powder, a powder. It cures Chapped, Swollen, Sweating, Sore, Aching, Damp feet. At all druggists and Shoe Stores, 25c.

## MRS. COOPER.

The Most Famous Sculptress in the World, Entirely Cured by Peruna.

Mrs. M. C. Cooper.

Mrs. M. C. Cooper, of the Royal Academy of Arts, London, England, is undoubtedly one of the greatest living sculptors. Runkin, the great artist, placed Mrs. Cooper as one of the greatest sculptors and painters of this century. Mrs. Cooper is an ardent friend of Peruna and in a letter dated January 26th, written from Washington, says the following: "I take pleasure in recommending Peruna for catarrh and la grippe. I have suffered for months and after the use of one bottle of Peruna I am entirely well."—Mrs. M. C. Cooper.

Send for a free book on catarrh entitled "Health and Beauty." This book is written especially for women, and will be found to be of great value to every woman. Address Dr. Hartman, Columbus, Ohio.
